

ADMISSIONS POLICY

SUMMARY

All Schools are legally required to have an Admissions Policy that gives a clear account of their entry procedures. They are expected to apply them fairly and consistently. The policy is available on the School's website and on request from the Admissions Office within each school in The Group.

GENERAL

The Stowe Group comprises three schools - Stowe School, Swanbourne House School and Winchester House School. All three schools provide co-educational independent school education for pupils.

Stowe School provides education for children from ages 13 to 18 and currently educates 920 pupils. Swanbourne House School provides education for children from ages 3 to 13 and educates 295 pupils. Winchester House School provides education for children from ages 3 to 13 and educates 315 pupils.

Deciding on the right school for your child is very important, and we believe that a personal visit is invaluable. Each school holds a number of Open Mornings which give a general introduction to the school; details of these mornings are published on our schools' websites, alongside information about each school's educational offer.

All three schools have an admissions team, and would be delighted to hear from you:

SIBLING POLICY

Whilst most siblings are able to join us and we make every effort to accommodate siblings into The Group's schools, admission is not automatic, and the candidate must satisfy the admissions criteria for the school to which they apply.

EQUALITY, DIVERSITY & INCLUSION

Candidates for admission will be treated equally, irrespective of their, or their parents' or guardians', race, sexual orientation, religion or belief, gender identity or any disability.

Our schools are inclusive and welcome applicants with disabilities and special educational needs. Our schools currently have limited facilities for the disabled but will do all that is reasonable to comply with its legal and moral responsibilities under the Equality Act 2010 and Special Educational Needs and Disability Act 2001 in order to accommodate the needs of applicants who have disabilities for whom, with reasonable adjustments, the School can cater adequately.

Parents/Guardians of a child who has any disability or special educational needs should provide the School with full details on registration. Our schools need to be aware of any particular requirements which may affect a child's ability to participate in the admissions procedure and to take full advantage of the education provided at the School.

The School shall determine the reasonable adjustments that are required for the applicant based on the information provided, in accordance with the School's obligations under equality legislation. The School will consult with parents about the adjustments which can reasonably be made to ensure that the application procedure is accessible for the child and that the School can cater adequately for the child should an offer of a place be made.

Each school's decision on whether it can cater adequately for a pupil's needs by making reasonable adjustments depends on: whether the adjustment will remove the substantial disadvantage; the cost of the proposed adjustment; the resources available internally or from external providers; the practicability of making the adjustment; health and safety requirements; the interests of other pupils including those who may be admitted to the school; and the school's charging structure generally.
