# 1 Digital Safety

## 1.1 Other policies

Many of these risks reflect situations in the off-line world and it is essential that the Digital Safety policy is used in conjunction with other School policies, these include:

The Stowe Staff Code of Conduct, the visitor's code of conduct, the Safeguarding and Child Protection Procedures and Policies Booklet, the anti-bullying policy and the School pupil behaviour and disciplinary policies.

## 1.2 Background

The development and implementation of this policy involves all the stakeholders in a pupil's education from the Headmaster to the House Staff, Classroom Teachers, Support Staff and parents as well as the pupils themselves.

The requirement to ensure that children and young people can use the internet and related communications technologies appropriately and safely is addressed as part of the wider duty of care to which all who work in schools are bound. These technologies can stimulate discussion, promote creativity, and increase awareness of context to promote effective learning. The School Digital Safety policy should help to ensure safe and appropriate use.

The use of these exciting and innovative tools in schools and boarding houses has been shown to raise educational standards and promote pupil achievement.

Some of the dangers from within and outside the School include:

- Access to illegal, harmful or inappropriate images or other content
- Unauthorised access to / loss of / sharing of personal information (DPA)
- The risk of being subject to grooming by those with whom they make contact on the Internet
- The sharing / distribution of personal images without an individual's consent or knowledge
- Inappropriate communication / contact with others, including strangers
- Cyber-bullying
- Access to unsuitable video / internet games
- An inability to evaluate the quality, accuracy, and relevance of information on the internet
- Plagiarism and copyright infringement

## Stowe School

### Digital Safety Policy

(Version 40 23-09-29)

- Illegal downloading of music or video files
- The potential for excessive use which may impact on the social and emotional development and learning of the young person.

As with all other risks, it is impossible to eliminate those risks completely. It is therefore essential, through good educational provision, to build pupils' resilience to the risks to which they may be exposed, so that they have the confidence and skills to face and deal with these risks.

The School must demonstrate that it has provided the necessary safeguards to help ensure that they have done everything that could reasonably be expected of them to manage and reduce these risks. The Digital Safety Policy that follows explains how we intend to do this, while also addressing wider educational issues in order to help young people (and their parents) to be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.

### **1.3 Development / Monitoring / Review of this Policy**

Members of the Pastoral Committee will:

- review / monitor the School digital safety policy / documents (including AUPs, Security Policies etc.)
- review / monitor the School filtering/firewall policy

This Digital Safety policy will be developed by the School's Pastoral Committee which is made up of:

- DSL / Second Master
- Head of IT and Data Protection
- Deputy Head (Pastoral)
- Deputy Head (Senior Master)
- Safeguarding Supervisory Governor(s)

Consultation with the whole School community will take place through the following:

- Staff meetings and INSETS
- Stoic Council
- INSET Day as part of the safeguarding update and training
- School website / Intranet
- Publication of regulations on House noticeboards

# Stowe School

## Digital Safety Policy

(Version 40 23-09-29)

The School will monitor the impact of the policy using:

- Logs of reported incidents
- logs of internet activity (including sites visited)
- Internal monitoring data for network activity
- Surveys
- Pupils
- Parents
- Staff

### **1.4 Scope of the Policy**

This policy applies to all members of the School community (including staff, pupils, volunteers, parents, visitors) who have access to and are users of School IT systems, both in and out of school.

The Education and Inspections Act 2006 empowers the Headmaster, to such extent as is reasonable, to regulate the behaviour of pupils when they are off the School site and empowers members of staff to follow disciplinary procedure for inappropriate behaviour. This is pertinent to incidents of cyber-bullying, or other Digital Safety incidents covered by this policy, which may take place out of School, but is linked to membership of the School.

The School will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents of incidents of inappropriate Digital Safety behaviour that take place out of school.

## 2 Roles and Responsibilities

The following section outlines the roles and responsibilities for Digital Safety of individuals and groups within the School. KCSIE (2018 Annex C) provides the most up to date Guidance for Online Safety:

### 2.1 Governors

The Governors are responsible for the approval of the Digital Safety Policy and for reviewing the effectiveness of the policy (in conjunction with other pastoral policies).

### 2.2 Senior Deputy Head / DSL

The Second Master / DSL, working with the Head of IT (Systems), is responsible for:

- the Digital Safety of pupils through the oversight of the development of relevant training and policy.
- the need for the DSL to go through online safety specific training and have an “up-to-date capability required to keep children safe whilst they are online” (see KCSIE 2018 Annex B).
- DDSLs should be in line with DSL re online safety specific training and setting out that the role should be explicit in any job description.
- ensuring that relevant staff receive suitable training to enable them to carry out their Digital Safety duties and to train other colleagues, as relevant.
- advising concerning serious Digital Safety incidents that require disciplinary aspects (as per the Behavioural Policy).
- a member of the Pastoral Committee.
- taking day to day responsibility for pupil Digital Safety issues and taking a leading role in establishing and reviewing the Schools’ pupil Digital Safety policies / documents.
- ensuring that all staff are aware of the procedures that need to be followed in the event of a Digital Safety incident which involves pupil safety.
- appropriate reporting to EMT concerning the above.
- ensuring that Data Protection events are forwarded to the Privacy Officer, usually via the Senior Deputy Head for recording in the log.

The Second Master / DSL will inform the Deputy Head (Pastoral), Head of IT and HR in the event of a serious Digital Safety allegation being made against a member of the academic staff. The DSL is trained in Digital Safety issues and is aware of the potential for serious safeguarding and child protection issues to arise from:

- Youth Produced Sexual Images (sexting)
- sharing of personal data (DPA)

## Stowe School

### Digital Safety Policy

(Version 40 23-09-29)

- access to illegal / inappropriate materials
- inappropriate on-line contact with adults / strangers
- potential or actual incidents of grooming
- cyber-bullying

It is important to emphasise that these are safeguarding and child protection issues, not technical issues simply that the technology provides additional means for safeguarding and child protection issues to develop.

ELT will receive Digital Safety reports as appropriate from the Senior Deputy Head.

### **2.3 Senior Deputy Head**

The Senior Deputy Head will forward incident details to the Privacy Officer for recording in the log.

### **2.4 The Head of IT**

The Head of IT will meet regularly with the Second Master/DSL and Senior Deputy Head to discuss current issues, review incident logs and filtering / change control logs and receive reports of all incidents and to inform future Digital Safety developments in order to ensure:

- that the School's IT infrastructure is secure and adequately protected from misuse or malicious attack
- that the School meets the Digital Safety technical requirements outlined in the School's Security Policy and Acceptable Usage Policy
- that users may only access the School's networks through a properly enforced password protection policy, in which passwords are regularly changed
- the School's filtering policy is applied and updated on a regular basis and that its implementation is not the sole responsibility of any single person
- that he / she keeps up to date with Digital Safety technical information in order to effectively carry out their Digital Safety role and to inform and update others as relevant
- that the use of the network / intranet / remote access / email is regularly monitored in order that any misuse / attempted misuse can be reported to the Second Master / HR manager or other members of EMT
- that monitoring software / systems are implemented and updated as agreed in School policies
- the IT Department are fully briefed with the relevant areas of the Digital Safety and other IT policies.

**Stowe School**  
**Digital Safety Policy**  
**(Version 40 23-09-29)**

**2.5 Deputy Head (Pastoral)**

The DH (Pastoral)'s responsibilities include:

- Ensuring all House Staff have an up-to-date awareness of Digital Safety matters and of the current School Digital Safety policy and practices with particular attention to issues specific to boarding houses.
- Making sure that House Staff are aware of their role in Enforcing the AUP/Digital Safety policy in particular relating to pupil devices in boarding houses and informing the Senior Deputy Head of any breaches.
- Monitoring of IT use, where practical, in boarding houses.
- Making sure that House Staff are actively engaging with Pupils in their House to make them understand the issues with regard to Digital Safety.
- Taking opportunities to engage parents in making them understand the potential risks with regard to Digital Safety.
- Holding a review meeting with the Second Master / DSL and Privacy Officer to update Digital Safety policy with reference to the incident log.

**2.6 Teaching and Support Staff**

Teaching and support staff are responsible for ensuring that:

- They have an up to date awareness of Digital Safety matters and of the current School Digital Safety policy and practices
- They have read, understood and signed the School Staff Acceptable Use Policy / Agreement (AUP)
- They report any suspected misuse or problem to the Head of IT / Second Master for investigation / action / sanction
- Digital communications with pupils (email / Virtual Learning Environment (VLE) / voice) should be on a professional level and only carried out using official School systems such as e-mail unless authorised by the Senior Master
- Digital Safety issues are embedded in all aspects of the curriculum and other School activities
- Pupils understand and follow the School Digital Safety and acceptable use policy
- Pupils have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- They monitor IT activity in lessons, extra-curricular and extended School activities
- They are aware of Digital Safety issues related to the use of mobile phones, cameras and hand held devices and that they monitor their use and implement current School policies as laid out in the School planner with regard to these devices

**Stowe School**  
**Digital Safety Policy**  
**(Version 40 23-09-29)**

- In lessons where internet use is pre-planned, pupils are guided to sites checked as suitable for their use and that accidental incidences of inappropriate content occurring will be reported to the IT dept.

## **2.7 Pupils**

The pupils' responsibilities include:

- Using the School IT systems in accordance with the Pupil Acceptable Use Policy, adopting safe practices, which they will be expected to confirm, during an induction class, that they have read and understood it before being given access to School systems. See <https://stowe.fireflycloud.net/pupil-it-help/acceptable-use-policy>
- Having a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- Keeping a backup on school systems including One Drive, of vital files and work
- Pupils need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- Knowledge and understanding the School policies on the use of mobile phones, digital cameras and hand held devices.
- Knowledge and understanding of School policies on the taking / use of images and on cyber-bullying.
- An understanding of the importance of adopting good Digital Safety practice at all times when using digital technologies and to realise that the School's Digital Safety Policy includes their usage when outside the boundaries of the school.

## **2.8 Parents**

Parents play a crucial role in ensuring that their children understand the need to use the internet / mobile devices in an appropriate way. Research shows that many parents do not fully understand the issues and are less experienced in the use of IT than their children. Parents are given and asked to sign a parental AUP to clarify their responsibilities in keeping pupils safe in the use of technology.

## 3 Policy Statements

### 3.1 Curriculum

- Digital Safety should be a focus in all areas of the curriculum and staff should reinforce Digital Safety messages in the use of IT across the curriculum
- Where pupils are allowed to freely search the internet, e.g. using search engines, staff should be vigilant in monitoring the content of the websites the young people visit
- Pupils should be taught in all lessons to be critically aware of the materials / content they access on-line and be guided to validate the accuracy of information. Pupils should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet
- In lessons where internet use is pre-planned, it is best practice that pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches

### 3.2 Staff Training

- It is essential that all staff receive Digital Safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:
- It is expected that some staff will identify Digital Safety as a training need within the performance management process
- All new staff should receive Digital Safety training as part of their induction programme, ensuring that they fully understand the School's Acceptable Usage Policy (AUP)
- The Head of IT will organise training advice / guidance to individuals or groups as required

### 3.3 Digital Safety Education

Whilst regulation and technical solutions are very important, their use must be balanced by educating pupils to take a responsible approach. The education of pupils in Digital Safety is therefore an essential part of the School's Digital Safety provision. Children and young people need the help and support of the School to recognise and avoid Digital Safety risks and build their resilience.

Digital Safety education will be provided in the following ways:

## Stowe School

### Digital Safety Policy

(Version 40 23-09-29)

- A planned Digital Safety programme will be provided as part of PSHE lessons and should be regularly revisited and tested – this will cover both secure use of IT and new technologies in School and outside School.
- Key Digital Safety messages are reinforced as part of a planned programme of tutorial / pastoral activities.
- Pupils will be taught in all lessons to be critically aware of the materials / content they access on-line and be guided to validate the accuracy of information.
- Pupils should be helped to understand the need for the pupil AUP and encouraged to adopt safe and responsible use of IT, the internet and mobile devices both within and outside School.
- Within lessons, pupils are taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet.
- Rules for use of IT systems / internet will be posted in all ICT rooms.
- Rules relating to the use of IT in boarding houses will be displayed on boarding house notice boards. A Digital Safety notice/poster will be supplied for this purpose.
- Staff should act as good role models in their use of IT, the internet and mobile devices.

#### **3.4 Pastoral Use of IT equipment**

Pastoral care is fundamental to Stowe's boarding environment; the School's pastoral policies demonstrate Stowe's commitment to providing pupils with the highest level of pastoral care. This pastoral care also extends to IT, both school provisioned and increasingly pupil-owned computing devices (laptops, mobile/smart phones, PDAs, word processors) as well as peripherals such as monitors, printers, special keyboards, mice and games consoles of all varieties. Pupils also are very keen to connect those devices to the internet via a variety of methods: via mobile 4G or by attempting to connect them to the School's network.

For these reasons there needs to be some specific guidance for House Staff on IT devices pupils bring into House (pupils will be informed of these policies in the AUP). Parents will be informed using the Parent Acceptable User Agreement. 3rd and 4th and 5th form pupils must hand in their devices before 2nd prep and bed time.

#### **3.5 Cyber-bullying**

Cyber-bullying can be defined as "The use of Information Communication Technology, particularly mobile phones and the internet, to deliberately hurt or upset someone" DCSF 2007

## Stowe School

### Digital Safety Policy

(Version 40 23-09-29)

Many young people and adults find using the internet and mobile phones a positive and creative part of their everyday life. Unfortunately, technologies can also be used negatively. When children are the target of bullying via mobiles phones, gaming or the internet, they can often feel very alone. A once previously safe and enjoyable environment or activity can become threatening, harmful and a source of anxiety.

It is essential that young people, School staff and parents understand how cyber-bullying is different from other forms of bullying, how it can affect people and how to respond and combat misuse. Promoting a culture of confident users will support innovation and safety.

Cyber-bullying (along with all forms of bullying) will not be tolerated in the School. Full details are set out in the School's policy on anti-bullying.

Sanctions for those involved in cyber-bullying are the same as any other form of bullying (as per the behaviour policy but will also include:

- The bully will be asked to remove any material deemed to be inappropriate or offensive.
- A service provider may be contacted to remove content.
- Internet access may be suspended at School for the user for a period of time.
- Confiscation of mobile devices whilst at School.
- If Safeguarding concerns are raised this could lead to suspension or expulsion

### 3.6 Using email

- Email is regarded as an essential means of communication and the School provides all members of the School community with an e-mail account for School based communication- texting and other methods are not 'auditable' and can be taken out of context.
- Communication by email between staff, pupils and parents should only be made using the School email account and should be professional and related to School matters only. E-mail messages on School business should be regarded as having been sent on headed notepaper and reflect a suitable tone and content and should ensure that the good name of the School is maintained. There are systems in place for storing relevant electronic communications which take place between School and parents.
- Use of the School e-mail system is monitored and checked.

**Stowe School**  
**Digital Safety Policy**  
**(Version 40 23-09-29)**

- As part of the curriculum, pupils are taught about safe and appropriate use of email. Pupils are informed that misuse of email will result in a loss of privileges.
- Responsible use of personal web mail accounts by staff is permitted.
- Protocols are in place to ensure staff are restricted in their use of mass emails.
- Where non-School e-mail addresses are used staff should use the BCC (blind copy) address bar to keep the e-mail addresses private. If the address bar is not visible this should be enabled using the options menu.
- Care should be taken to ensure that content is sent to the appropriate recipient, with special regard to the information contained in previously forwarded parts of the e-mail.

**3.7 Technical – infrastructure / equipment, filtering and monitoring**

- Also see Information Security Policy and Taking and Using Images of Children Policy.
- The School will be responsible for ensuring that the School infrastructure / network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people named in the above sections will be effective in carrying out their Digital Safety responsibilities.
- School IT systems will be managed in ways that ensure that the School meets the Digital Safety technical requirements outlined in the School Security Policy and Acceptable Usage Policy.
- There will be annual reviews and audits of the safety and security of the School IT systems.
- Servers, wireless systems and cabling must be securely located and physical access restricted.
- All users will be provided with a username and password by the IT department who will keep an up to date record of users and their usernames. Users will be required to change their password according to the network password policy. This is enforced by the Network every 6 months and should not be updated according to a recognisable pattern.
- Users will be made responsible for the security of their username and password, and should also use physical security (locked doors/drawers) to restrict access to computers. User's must not allow other users to access the systems using their log on details and must immediately report any suspicion or evidence that there has been a breach of security, for example unknown devices attached to the computer.

## Stowe School

### Digital Safety Policy

(Version 40 23-09-29)

- The IT Department maintains and supports the managed internet filtering and firewall service and includes proxy sites, VPN services, unethical sites and extremism within the categories that are excluded under specific educational filters from an industry standard perspective. Please inform IT if any sites are permitted that pose a threat to pupils or staff at Stowe.
- In the event of the IT Department needing to switch off the filtering for any reason, or for any user, this must be logged and carried out by a process that is agreed by the Head of ICT.
- School IT technical staff, in collaboration with teaching and Pastoral/House staff and the DSL, monitor and record the activity of users on the School IT systems and users are made aware of this in the Acceptable Use Policy.
- Remote management tools are used by the IT Department to control workstations and view users' activity and this will only be done with the knowledge and consent of the user of that computer.
- Appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems, work stations, hand held devices etc. from accidental or malicious attempts which might threaten the security of the School's systems and data.
- An agreed procedure is in place for the provision of temporary access of "guests" (e.g. trainee teachers, visitors) onto the School system.
- The School infrastructure and individual workstations are protected by up to date virus software (continuously updated throughout the day) and are patched for all available critical security vulnerabilities (during holidays and half terms).
- Personal data must not be sent over the internet or taken off the School site unless safely encrypted or otherwise secured.

### 3.8 School website:

The School maintains editorial responsibility for any School initiated website or learning platform content to ensure that content is accurate and the quality of presentation is maintained. The School maintains the integrity of the School website by ensuring that responsibility for uploading material is always moderated and that passwords are protected.

The point of contact for the website is the School address, e-mail and telephone number. Published contact details for staff are School provided.

Creating online content as part of the curriculum:

As part of the curriculum, we encourage pupils to create shared digital content. Pupils are taught safe and responsible behaviour in their creation and publishing of online content. They are taught to publish for a wide range of audiences within the Stowe community which might

### Digital Safety Policy

(Version 40 23-09-29)

include Governors, parents or younger children. Blogging, podcasting and other publishing of online content by pupils for School related activities should take place within a protected forum. Appropriate procedures to protect the identity of pupils must be followed.

Publishing personal information over the internet should only be undertaken with the permission of the Second Master. School sponsored content sharing should be moderated by the responsible teacher to avoid publication of any inappropriate or personal material. To enable effective and safe use of content sharing, a Stowe intranet web page or the Stowe VLE or a site that offers the option of teacher moderation is the best solution to protect the School community from inappropriate content being published, including pictures or video as detailed below.

### **3.9 Managing School Networking Sites (SNS) and their use by pupils and staff**

*Sections 3.8 & 3.9 should be read in conjunction with the Safeguarding and Child Protection Policy*

Social networking sites, if used responsibly both outside and within an educational context, can provide easy to use, creative, collaborative, and free facilities. However, it is important to recognise that there are issues regarding the appropriateness of some content, contact, culture and commercialism. To this end, we encourage our pupils to think carefully about the way that information can be added and removed by all users, including themselves, from these sites.

- All pupils are advised to be cautious about the information given by others on SNS sites, for example users not being who they say they are.
- Pupils are taught to avoid placing images of themselves (or details within images that could give background details) on such sites and to consider the appropriateness of any images they post due to the difficulty of removing an image once online.
- Pupils are always reminded to avoid giving out personal details on such sites which may identify them or where they are (full name, address, mobile/ home phone numbers, School details, IM/ email address, specific hobbies/ interests).
- Our pupils are advised to set and maintain profiles on such sites to maximum privacy and deny access to unknown individuals.
- Pupils are encouraged to be wary about publishing specific and detailed private thoughts online.
- Our pupils are asked to report any incidents of bullying to the School.
- Staff may only create blogs, wikis, forums or other web 2 spaces in order to communicate with pupils' systems approved by the Pastoral committee.

## Stowe School

### Digital Safety Policy

(Version 40 23-09-29)

- Staff who make private use of Social networking are given the following advice:
  - Always adopt and maintain the appropriate privacy settings
  - Avoid 'friending' pupils or past pupils (or relatives of pupils) on their private accounts.
  - Maintain professional standards at all times
  - Never post anything unprofessional
  - Never post School or pupil information / photographs without permission from the School and the pupils' parents.
  - Warn friends of the dangers of posting incriminating photographs or information.

### **3.10 Safeguarding and Child Protection Staff Conduct: Social Media and Mobile Devices**

*Sections 3.8 & 3.9 should be read in conjunction with the Safeguarding and Child Protection Policy*

All Stowe School staff must ensure that personal social media accounts such as Facebook, Instagram, Twitter et al are protected with robust security settings. The settings should ensure that pupils cannot access personal photographs, friend lists, 'likes' and written posts should not be available to the public. Staff should never allow pupils to befriend or 'follow' them on any social media account whilst a staff member is employed by Stowe School.

In addition, Staff may only create blogs, wikis, forums or other web spaces in order to communicate with pupils' systems approved by the Pastoral committee. All Staff are expected to maintain professional standards at all times (Staff Code of Conduct) and never post School or pupil information or images on their personal accounts.

In order that staff are protected from allegations of 'grooming' or inappropriate contact with pupils, staff are requested to decline contact with ex pupils via personal social media accounts until the alumnus has reached the age of 21.

### **3.11 Mobile Devices**

A 'mobile device' may be a phone, ipad, ipod or iphone or any form of hand held phone, tablet or laptop with the facility to take photographs and transmit them electronically and/or to hold conversations or personal video recorders and cameras.

Staff are reminded that The Protection of Children Act 1978 prohibits at Section 1(1)(a) the

## Stowe School

### Digital Safety Policy

#### (Version 40 23-09-29)

“taking or making” of an indecent photograph or pseudo-photograph of a child. According to the Memorandum of Understanding between Crown Prosecution (CPS) and Association of Chief Police Officers (ACPO) concerning Section 46 Sexual Offences Act 2003:

*“Making includes the situation where a person downloads an image from the internet or otherwise creates an electronic copy of a file containing such a photograph or pseudo photograph. To be an offence such a ‘making’ must be a deliberate and intentional act, with the knowledge that the image made was, or was likely to be, an indecent photograph or pseudo photograph of a child.”*

Personal mobile devices cannot be used to record classroom activities – only school property can be used for this purpose. Photographs maybe taken for the purpose of recording a child or group of children participating in activities or celebrating their achievements, however it is essential that photographs / film are taken and stored appropriately to safeguard the children in our care. Images can only be transferred to and stored on a school computer to be printed. Parental consent is sought for photographs to be taken or published i.e. on the school website or in publications. Care must be taken by staff to ensure that any photographs or images of pupils does not identify any individual child by name in a publication to be shared with the general public. During trips and visits - school provided mobile phones are available from Reception. For health and safety on school trips, a staff trip leader’s mobile number can be distributed to pupils, however staff must not reciprocate and store pupil’s mobile phone numbers in their personal devices. Staff must report any inappropriate communications from pupils to staff personal mobile phones to the DSL / Second Master immediately.

It may be necessary in a school boarding environment for some staff other than Housemasters (e.g. Tutors, Masters in charge, sports staff) to be informed of a 6<sup>th</sup> Form pupil’s personal mobile number. When this is necessary, pupils should be asked to email their mobile number to the member of staff concerned via the Stowe School server/outlook. Staff must ensure that pupils’ mobile numbers are **never** stored in their personal mobile contact list. Contact via personal mobile must only contain work related communication and use professional language at all times. Should a member of staff receive communication considered inappropriate they must **immediately** inform the DSL / Second Master.

### **3.12 Process for Staff when discovering indecent images of pupils**

Staff need to be particularly careful when discovering incidents Youth Produced Sexual Images (YPSI) as it is possible that a staff member may breach the law and could themselves be accused of making or sharing indecent images of children.

If any member of staff (including support staff such as IT staff) finds an indecent image of a child, they should follow this procedure:

## Stowe School

### Digital Safety Policy

(Version 40 23-09-29)

- If the image is on the School network, staff must alert ICT Support on internal phone: 8296/8234 who will disable access to the area where the picture(s) have been stored. The image(s) should not be viewed during this process.
- If the image(s) is on a pupil owned device or network, staff must confiscate the device.
- Staff must not view the material beyond the first initial identification of an indecent image if the staff member finds the image by accident or is sent the image unknowingly. Staff must never screenshot or forward the image.
- If a pupil discloses to a staff member in respect to a YPSI they must ask the pupil to describe the image but not view it themselves. The DSL must be contacted, pupil devices confiscated and ICT Support alerted immediately if the image is on a network/public social media page.
- The DSL / Second Master will be notified by ICT Support. If the image is on a device this should be kept securely and delivered by hand to the DSL and/or Second Master.
- The Second Master will document a Digital Safety 'incident'.

Following an investigation by the DSL/ Second Master, Headmaster and Senior Master, following the procedures as stated in the Safeguarding and Child Protection Policy, the image will be removed from the network/device. If an image is on a pupil's social media page (or other external web site) – this will be deleted by the pupil under supervision.

### 3.13 Protecting School Data

Personal data will be recorded, processed, transferred and made available according to the Data Protection Act 1998 which states that personal data must be:

- Fairly and lawfully processed
- Processed for limited purposes
- Adequate, relevant and not excessive
- Accurate
- Kept no longer than is necessary
- Processed in accordance with the data subject's rights
- Secure
- Only transferred to others with adequate protection.

More specific detail on data protection can be found in the School's data protection policies and procedures.

Staff must ensure that they:

**Stowe School**  
**Digital Safety Policy**  
**(Version 40 23-09-29)**

- At all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse by keeping them on school storage whenever possible.
- Use personal data only on secure password protected computers and other devices, ensuring that they are properly “logged-off” at the end of any session in which they are using personal data.
- Transfer data using encryption and secure password protected devices.
- When handling printed copies of personal data from the School’s MIS systems, those printouts are secured against loss and shredded when no longer required.

When personal data is stored on any portable computer system, USB stick or any other removable media:

- The data must be encrypted, and password protected.
- The device must be password protected (many memory sticks / cards and other mobile devices cannot be password protected).
- The device must offer approved virus and malware checking software
- The data must be securely deleted from the device, in line with School policy (as set out in the security policies and procedures) once it has been transferred or its use is complete.

## 4 Data Protection Incident Reporting, Digital Safety Incident Log & Infringements

### 4.1 Incident Reporting

Any incident involving a pupil must be reported to the pupil's Housemaster/mistress who will then deal with the incident following the Digital Safety incident process (detailed at 4.4 below).

### 4.2 Incident Log

All Digital Safety incidents concerning Data protection will be reported to Privacy Officer by the Senior Master and then recorded in the Digital Safety log which will inform the development of policy at the summer Digital Safety review meeting.

### 4.3 Process for handling Digital Safety incidents

In incidents involving a pupil either as victim or originator of the incident please refer to the safeguarding policy and follow the appropriate procedure.

### 4.4 Possible sanctions in case of Digital Safety breach by a pupil

This is a suggested guide for House Staff who need to sanction a digital Safety offence.

First offence (depending on the incident)	Loss of email for 1-3 weeks  Loss of internet access for 1-3 weeks  Loss of Smartphone*/iPod/iPad for 2days  Loss of computer in Study for 1 week (any work for Preps would require a visit to the library)  Any other sanction common to a particular boarding houses for minor offences
Second offence	As above (but sanctions included) +  Detention (with a particular focus on Digital Safety...)  Letter to parents

Stowe School  
Digital Safety Policy  
(Version 40 23-09-29)

Third offence (or serious breach)	As Above (but sanction period until the end of term...)  Suspension.

### 3 Boarding House IT Safeguarding Regulations

## Boarding House IT Safeguarding Regulations

This notice is a part of the Digital Safety Policy which details regulations for safe use in Boarding Houses in addition to the Acceptable Usage Policy which is available on the Stowenet at

<https://stowe.fireflycloud.net/pupil-it-help/acceptable-use-policy>

Information below re enforces the fact that the school Firewall Filters and logs all attempts to access unsuitable web sites. Also social media website are switched off at unsuitable times, and in any event all Wireless access is turned off after 11.30pm. Full details of network access arrangements are on Stowenet at:

<https://stowe.fireflycloud.net/pupil-it-help/network-wireless-and-internet-access-times>

Hacking or any attempts to avoid any restriction below, or any unsuitable use of technology as a serious breach of privacy can result in confiscation of phones, a letter home and sanctions being applied by Housemasters. More detailed advice is at section 4 of the Digital Safety Policy.

Item	Pupil regulation	Background notes
Mobile Devices  / Smart phones / iPods /MP3 players	Pupils are allowed mobile phones / Smartphones / ipods, MP3 players in boarding houses, but these are subject to the School's Acceptable Use Policy.	Parents are warned about the possible Digital Safety risks that these devices present through the Parental Acceptable use policy and asked to restrict pupil devices to an appropriate level. Pastoral care and safeguarding education to promote responsible use, are therefore paramount additional layers of pupil safety.  Pupils are educated about the Digital Safety risks these devices present (as part of the school's safeguarding program).

Stowe School  
 Digital Safety Policy  
 (Version 40 23-09-29)

<p>Laptops / Tablet devices</p>	<p>Pupils are allowed to bring in their own Laptops or Tablet devices and access various services using Stowenet and Office 365.</p> <p>To access the network they must install a Virus checker and update and then pass through the school network access security procedure.</p>	<p>Parents are warned via the Parental Acceptable Usage Policy of the possible Digital Safety Risks that these devices present and need for their cooperation in managing risks effectively.</p> <p>It is important to note that any device bought into School will need to be covered by parents' insurance policy and pupil's need to observe appropriate security precautions to safeguard their property under the terms of that policy. The School will maintain no liability for the loss or damage to these devices.</p>
<p>Connectivity of pupil owned devices</p>	<p>Pupils are only allowed to connect their devices to the School network through a specific wireless network, StoweNSL, configured by the IT department for that purpose.</p> <p>Connectivity of a pupil owned device to the internet via 4G, or non-School wireless devices is NOT ALLOWED if an alternative School provisioned wireless service is available in Houses.</p>	<p>Any attempts to avoid filtering using external networks or VPN will result in immediate confiscation of the device and may necessitate a return of the device to the parent with a letter explaining the issue.</p> <p>Any hacking attempt from the device will be considered a serious breach of the rules as it has the potential to significantly disrupt the School's operation.</p>
<p>Pupil owned Wireless network devices</p>	<p>Pupils are NOT ALLOWED to bring in equipment that will broadcast any wireless connection within the boarding house.</p>	<p>Pupils will attempt to do this to bypass the School's internet filter. Any devices found will be confiscated immediately.</p>
<p>Network usage times</p>	<p>All network access is restricted for the use of SNS during teaching, prep and after lights out. Internet is off from Lights out to 6 am- times are given here</p> <p><a href="https://stowe.fireflycloud.net/pupil-it-help/network-wireless-and-internet-access-times">https://stowe.fireflycloud.net/pupil-it-help/network-wireless-and-internet-access-times</a></p>	<p>Devices that are used or switched on out of these times will be confiscated for a period as defined by the Housemaster. If a pupil is using Social Media during prep or lesson times, it is likely they are using a 4G network or bypassing the school filters.</p>

Stowe School  
 Digital Safety Policy  
 (Version 40 23-09-29)

Peripherals for School PCs	<ul style="list-style-type: none"> <li>• Pupils are allowed to use the following peripherals on school machines:</li> <li>• Standard USB Mice and Keyboards (Note IT will not install device specific drivers for particular models).</li> <li>• Private Printers and computer monitors are not allowed to be connected to School machines.</li> <li>• Devices that draw power via USB connectivity (such as mini fridges, desk fans etc.) are not allowed.</li> </ul>	USB transfer of data to the School network is permitted as long as it is scanned by an updated virus checker.
Games Consoles	<p>Pupils are not allowed to bring games consoles into a House.</p> <p>Hand held gaming devices are allowed but will only be used within the boarding house (see further note about excessive use).</p>	Any console found will be confiscated and sent home at the earliest opportunity with a suitable notification to parents.
Storage or Downloading of Inappropriate material	Downloading or storage of inappropriate or offensive material on pupil-owned devices is not allowed.	<p>If such material is discovered, then confiscation of the device will be required and material will need to be cleaned and removed (the IT department will help in this process and investigate the method through which the materials were accessed).</p> <p>Serious breaches will be followed up by the Senior Master with parents.</p>
The taking, storage or transmission of indecent images or any information of	The making, storage or transmission of indecent images or information regarding pupils or staff is not allowed and is seen as serious breach of the School rules.	In the event of finding such an image, follow the 'Process for staff handling indecent images of pupils' within the School Digital Safety Policy. Failure to follow the correct procedure could lead to Police involvement.

Stowe School  
 Digital Safety Policy  
 (Version 40 23-09-29)

pupils or staff is prohibited.		
Inappropriate use of images, videos or films.	The taking and or viewing of inappropriate images (photos, videos or films/DVDs) in house is not allowed. In any event pupils should not take photos of other pupils or staff without permission or if they are in any way intrusive of their privacy.	Examples of inappropriate material include videos of fights/pranks, films/ DVDs and viewing materials with a certificate that is inappropriate to the age of the child. Recording should not take place in any form in changing rooms, showers toilets or other private spaces.
Using a device for the purposes of causing distress to others (Cyber bullying)	Cyber bullying is when a person, or a group of people, uses the internet, mobile phones or other digital technologies to threaten, tease or abuse someone.  This is not tolerated and will be handled using the Anti-Bullying policy.	Any suspected cyber bullying is likely to result in the device being confiscated. Please see section 3.5 to 4.4 of the Digital Safety Policy for further advice.
Unauthorised or secret use of personal devices	Unauthorised or secret use of a mobile phone or other electronic device, to record voice, pictures or video is not allowed. Unauthorised publishing of such material on a web site which causes distress to the person(s) concerned will be considered a breach of School discipline, whether intentional or unintentional. The person responsible for the material will be expected to remove this immediately upon request.	Please see section 3.6 to 4.4 of the Digital Safety Policy for further advice.
On-Line gambling.	Online gambling on any devices is not allowed.	If evidence of online gambling is found there will be a suitable punishment by the housemaster and a letter sent home to parents.

Stowe School  
 Digital Safety Policy  
 (Version 40 23-09-29)

Gaming on personal devices.	Excessive gaming on personal devices and hand held gaming devices is not allowed.	If a pupil is excessively gaming and this is affecting their contribution to the house or academic studies, then the device will be confiscated for a period stipulated by the Housemasters / Housemistresses. ICT can be requested to reduce bandwidth available to pupils.
Video / On line meetings	Online meeting tools such as Skype, FaceTime are not blocked on pupil devices unless such use results in bandwidth usage which causes issues to the normal running of network services at Stowe.	The Second Master, DSL and Housemaster should be alerted of any safeguarding concerns resulting from inappropriate use. Please see section 3.6 to 4.4 of the Digital Safety Policy for further advice.
